

European WEEE Regulation 2012/19/EU

Collection and Recycling Arrangements in Italy.

Under the **Italian Legislative Decree 151/05 - Waste Electric and Electronic Equipment (WEEE) Regulations** and subsequent amendment to **Legislative Decree no. 49/2014**. Pall provides arrangements for the collection, treatment, recycling and recovery of any electric and electronic equipment bought new from Pall, when at the end of its life that equipment finally becomes waste. Waste electrical or electronic equipment of this type is referred to as WEEE.

Pall Italy has established a recycling contract with European Recycling Platform (ERP, registered to a National Consortium), and will cover any costs of treatment, recycling and recovery of the equipment on arrival at ERP recycling facility in Italy. WEEE that arises from the purchase of Pall devices is classed as non-hazardous waste based on the materials of construction employed by Pall in its manufacture – unless otherwise indicated on the product label. However, if as the result of use the equipment has been contaminated with a 'hazardous' substance, please dispose of the equipment in line with the hazard present.

In order to meet Italian regulation for waste disposal, please refers to D.lgs 49/2014 art.24 comma 1,2, and 3. You should use one carrier holding a valid Waste Carriers license according to TU Ambiente, D.Lgs. 152/06, or contact ERP Italia directly for the collection.

The ERP recycling facility in Italy is:

Recycler	Telephone Number	Website
ERP Italia S.c.a.r.l.	02-92147479	www.erp-recycling.it

E mail:

italy.operations@erp-recycling.org

To comply with Italian Waste Transport Regulations all WEEE must be accompanied by suitable documentation when transported to the recycler. In order to comply with this regulation and to enable ERP to identify Pall equipment upon arrival at the recycler's address, please download the [Recycling Label for Italian Customers](#). Complete the [label](#) with your company details and attach it to a suitable box for transport to ERP.

WEEE Reporting Recycling Data for Pall Equipment in Italy

Under Article 13 of the Decree, Pall must provide annual information on the quantities and categories of electrical and electronic equipment put on the market, reused, recycled and recovered within Italy.

ERP will prepare the recycling data report for Pall.

Pall thank you for your participation in this key recycling endeavour.
